

Please do not allow LPFM stations to take priority over existing current FM translators. In the case of KLOVE, You have an active station with a strong audience who will lose the only Christian programming available to us from ANYWHERE. Unlike many stations who broadcast programming/lyrics that are offensive, KLOVE broadcasts good family values that strengthen our community and assist parents with raising their children. We can not receive any other Christian radio station at all - this is the only one we have! There is a huge selection of secular stations, please don't offer us more of the same! KLOVE not only is uplifting and moral, it give good sound unbiased news reporting, up to the minute breaking news along with financial advise, and all sorts of information that we cannot receive elsewhere without the addition of offensive or biased material. I can listen to KLOVE with my children and not worry what sorts of things they will hear on commercials or offensive remarks the announcers make. The public has the right to have a choice on what is brought into our homes, offices and cars - please do not reduce our options and the great benefits that KLOVE provides to our community. We simply do not need more negative input, there is plenty of that to choose from already. I sincerely Thank You for your consideration and your time.
